

VACUUM HOSE

This product is directly linked into the autoclave.

The vacuum hose could be delivered not equipped or equipped on each side with :

- 1 adaptor ¼ male, BSPT or NPT
- 1 connector QRC Stainless Steel or Brass female (1/4'), BSPT or NPT
- 1 Elbow Stainless Steel or Brass (1/4'), BSPT or NPT

Reference, examples:

A5VHA45HT02 : Silinox hose equipped with S/S QRC, S/S Elbow - 4,5 meters long (15")

A5VHA45HT010 : Silinox hose without end (not equipped) - 4,5 meters long (15")

The reference A5VHAHT is from the "Silinox" family for **High Pressure and Temperature** autoclave hose. The hose consists of an unconvoluted, straight PTFE tube with an outer braid, stainless steel wire plus an additional silicone layer around it to protect the vacuum bag.

IDEAL FOR

✓ Autoclave

Fig: Quality of each end

Inside diameter:	10 mm
Outside Diameter:	18 mm
S/N number:	Engraved on each item
Standard length:	1 to 15 meters (3 to 49")
Maxi radius:	75 mm
Tube colour:	Red
Temperature :	232°C (450°F)
Pressure :	15 Bar (217 PSI)
