

AUTOCLAVE

LAB 115/120

AUTOCLAVE FOR COMPOSITE

New equipment dedicated to laboratories, research centers, universities and to cure small parts in composite.

Manufacturing 100% French, in our workshop near Lyon, according to European legislation DESP 97/23/CE for pressure vessels. This standard autoclave very economical, will be fully mounted on a platform with all equipments pre wired and with all safety devices. Easy to install.

This competitive autoclave is equipped with top quality components, allowing us to propose the best ratio quality/cost autoclave.

Fully tested in our workshop, a pre commissioning report will be sent before shipment.

SEVERAL SIZES :

- LAB 115 (Øint 1m x 1.5m long), 10 bar 220°C.
- LAB 120 (Øint 1m x 2m long), 10 bar 220°C.
- LAB 1530 (Øint 1.5m x 3m long), 10 bar 220°C.
- LAB 1540 (Øint 1.5m x 4m long), 10 bar 220°C.
- LAB 2040 (Øint 2m x 4m long), 10 bar 220°C.

EXAMPLE LAB 115

- Int Diameter: 1000 mm
- Working Length: 1500 mm
- Pressure max: 10 bar
- Temperature max: 220°C
- Thermocouples: 4 à 6
- Vacuum zone: 2 à 4
- 20°C à 220°C: 3°C/min
- 220°C à 60°C: 3°C/min
- Supply power: 125 Amp, 410V

INCLUDED

- Control system
- Vacuum pump 17m³/h
- Water tank
- 2 water pumps
- Chiller
- Internal trolley
- External trolley
- Silencer
