

INFRARED LAMP

IRPE V3 Range

INFRARED LAMP WITH ADVANCED CONTROL SYSTEM

Use infrared lamp is essential for composite curing and drying with irregular shapes when the contactless heat source is required. This upgraded version offers a better traceability, homogeneity (IRPE6.6) and especially several options available.

Programs with specific time cycles and a maximum of two levels can be created without manual thanks to the color touch screen 8.4".

Our IR lamp is very useful and can be positioned easily. Pivoting casters with brakes and articulated arm allows to position the lamp precisely and offer a great stability.

IDEAL FOR

- ✓ Curing & Drying your composite part

ADVANTAGES

- ✓ No flash during the cure
- ✓ Touch screen
- ✓ 3 types of reports
- ✓ Audible alarm
- ✓ Easy to use
