

QRC MALE/FEMALE

CONNECTORS

QRC Male/Female

With their unique design, these connectors allow air circulation from point A to point B. They are secured and easy to use (connection and disconnection).

These Aeroform quick couplings are designed for composite applications. Their double viton O-rings and stainless-steel locking balls provide better durability and sealing.

There are two types of QRCs:

- ✓ Brass
- ✓ Stainless Steel

You can find male QRCs in our range.

Brass

Stainless Steel

IDEAL FOR

- ✓ Autoclave
- ✓ Oven
- ✓ Hot bonder

MAIN FEATURES

- ✓ Maximum pressure: 15 bars
- ✓ Thread: ¼ BSP
- ✓ Maximum temperature: 230°C
- ✓ Locking type: Ball
- ✓ Manufactured according to ISO B standards
