

DUST COLLECTOR

A15VPH-01

DUST COLLECTOR

Our vapor hood has been designed for the extraction of fumes and types of dust generated from composite repair processes.

The hood guarantees effective usage time thanks to an automatic filter cleaning device.

IDEAL FOR

- ✓ Collection of fumes, dust and smoke

MAIN FEATURES

- ✓ Pressure: 2000 Pa
- ✓ Flow rate: 1500 m³/h
- ✓ Noise: 75 B at 1m, 65 dB at 5 m
- ✓ Voltage: 230 V
- ✓ Power: 1.1 kW
- ✓ Compressed air consumption: 0.7 Nm³/h
- ✓ Weight: 140 kg
- ✓ Number of arm : 1
- ✓ Spark arrestor pre-filter
- ✓ Electrical arrival and control unit
- ✓ Pneumatic filter cleaning system
- ✓ Dust container (capacity 30 liters)
- ✓ Radial fan
- ✓ Hour counter
- ✓ Pressure switch indicating the degree of pollution
- ✓ Wheels
